

We will support you to support your clients

Ensuring women and children are safe is our priority.

We know this is a difficult time for many women and children, who are spending more time with their abuser.

Contact with their support networks has also become significantly restricted.

That's why it's important for us to work together.

We have a full team responding to family and domestic violence across the Loddon region, and can provide advice to you.

If your client can't contact us, but they're in contact with you, we can support you to work with them.

Here's what we can do, to help you:

- Provide advice to you about family and domestic violence and keeping women safe
- Provide secondary consultations if your client isn't connected to CNV
- Assess risk and provide safety planning advice
- Support victims who continue to live in the family home
- Work with men who choose to use violence and support them to keep women and children safe

Contact us on 1800 884 292 and ask for a senior worker
